

Semi-automatic sealless steel strapping tools

Characteristics

Strapping qualities:	Ultraflex high tensile max. 1100 N/mm ² / 160'000 psi
Strapping dimensions:	widths 12.7 – 19.0 mm / ½ – ¾"
thicknesses	0.38 – 0.58 mm / .015 – .023"
Weights:	5.1 kg / 11.2 lbs without grip ball for horizontal applications 5.2 kg / 11.5 lbs with grip ball for horizontal applications
Average seal strength:	approx. 80 %
Strap tension:	6000 N / 1350 lbs
Suspension (Optional):	Bolt and grip ball for horizontal applications; have to be ordered separately

Advantages

- The semi-pneumatic tool allowing strap tension by air and manual sealing is characterised by its reliability, its ruggedness and its service friendliness
- Simple operation for strapping of flat packages
- Pneumatic operation increases speed and strap tension
- Consistent amount of strap tension is guaranteed
- The sealless joint reduces the overall strapping costs by approx. 10 % through the elimination of the seals
- The lightest strapping tool of its kind permits easy operation within a wide working radius

Chart of types model A391

Item No.	Model	Ultraflex max. 1100 N/mm ² / 160'000 psi				Max. Tension		Tension speed
