

High tension steel strapping head with three notch sealless joint MH200**Technical data for strapping head MH200**

Suitable strapping qualities:	Steel (UNIFLEX and ULTRAFLEX)
Strapping dimensions:	Widths 19 – 32.0 mm Thicknesses 0.70 – 1 mm
Sealing strength:	Up to 80% (dependent on strap quality)
Sealing method:	Sealless joint (with three notches)
Dimensions :	H 810 x w 777 x T 270 mm
Strap tension:	> 18000N,(3900lbs) ajustable
Speed of tension:	120 mm/s
Feed/retract speed:	2 m/s
Power:	Pneumatic, air pressure min. 6 bars /90psi
Float	200NI/53 gal/cycle
Min. package size:	W 200 mm /Bobine Ø 800 mm
Weight:	160 kg/352 lbs
